

Website Navigation

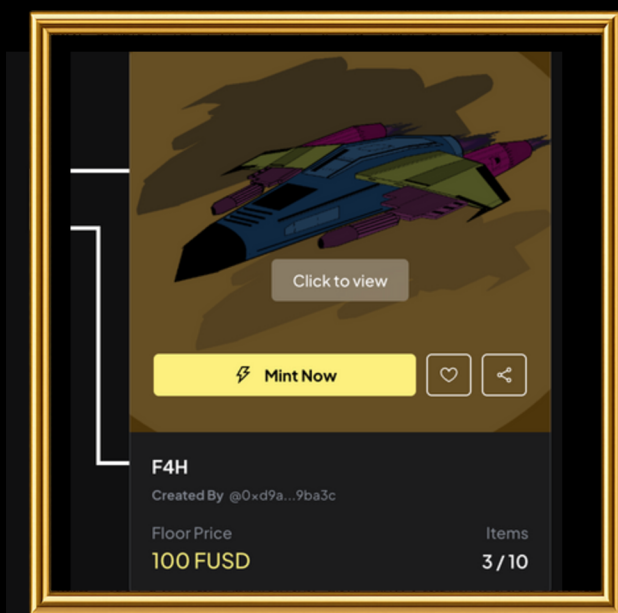

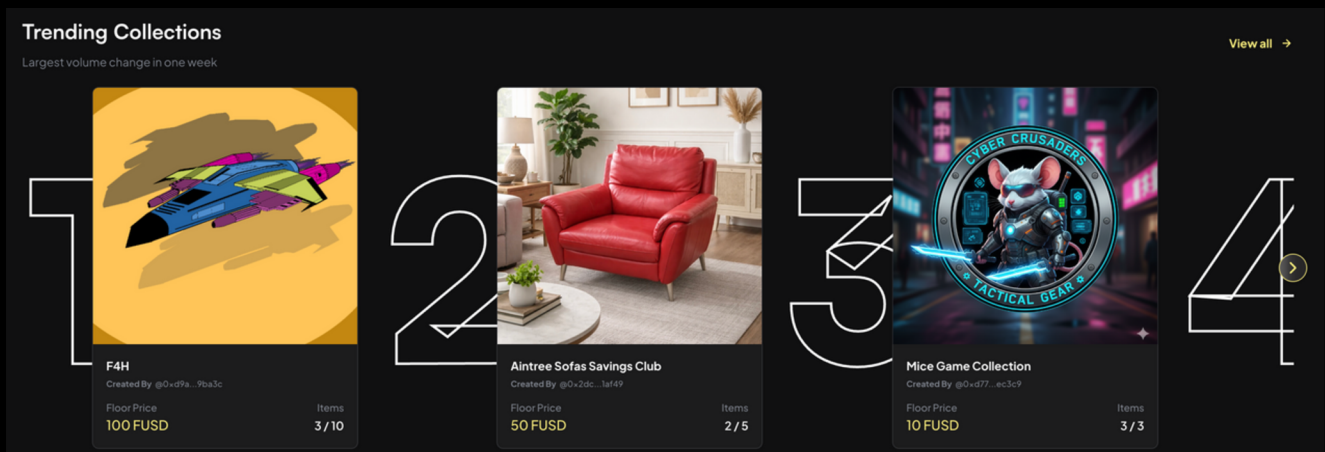

It's really easy to navigate your way around the Liquid platform – the site flow is the same whether you're using a mobile device or a laptop...let's start by taking a look at the EXPLORE tab!

The first segment you'll find headlining the home page showcases our **FEATURED COLLECTIONS**

This will normally be a very small handful of projects which scroll continuously across the top of our home page. Listing on the Liquid platform is free, but you can choose to pay a supplement at the point of mint – or later – to have your collection featured in this premium NFT Real Estate.

Next, you'll find our Trending Collections, which is a roll call of our platform top 10 (by volume of mints)

By clicking into **any collection's thumbnail**, you'll see all the information relating to it, like the examples below

THE NFT MARKETPLACE

One of the most exciting and vibrant sections on the new Liquid NFT platform is our secondary sales marketplace!

Almost all new collections are minted blind.

On the Marketplace, you get to choose!

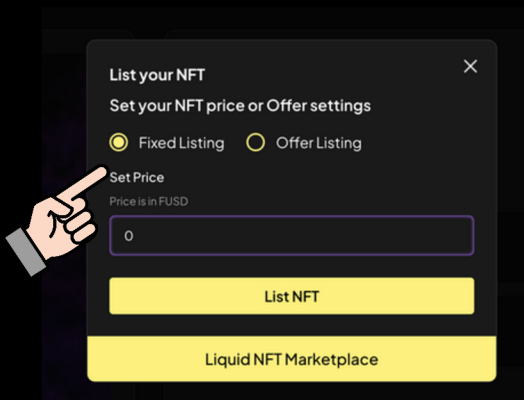

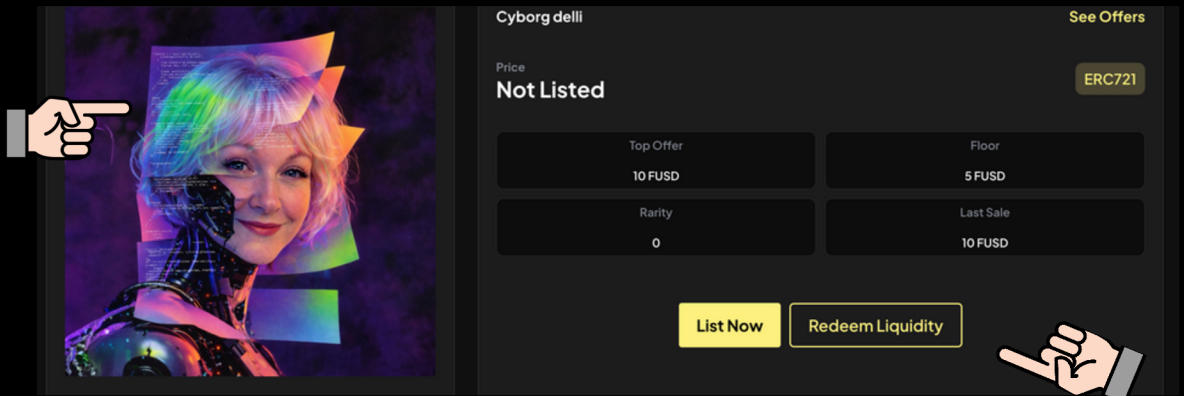

MARKETPLACE AS A SELLER!

LIQUID|NFTS

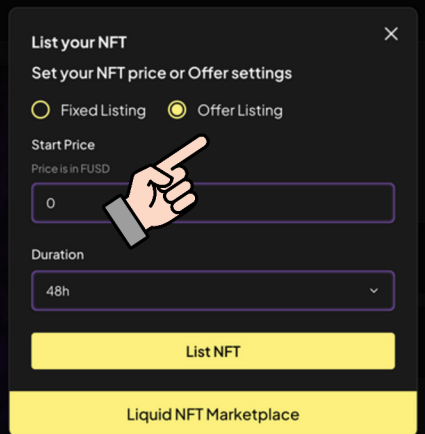

When you list your NFT for sale, you have 2 options.

You can list it for a fixed price, or you can list it in offer format, and invite offers. Kind of like an auction.

Click into the NFT you own and want to list – this is the screen you will see.

If you choose a fixed price listing, simply state your price and list!

If you choose an offer listing (auction format) set your start price and duration – then list!

If you're in a hurry and you don't want to wait, redeeming the liquidity inside your NFT here will burn the NFT and put the funds in your wallet immediately!

MARKETPLACE AS A BUYER!

When you see an NFT you want to buy, check the listing format. It will either be fixed price, or offer (auction) format.

HOW TO BUY

LIQUID|NFTS

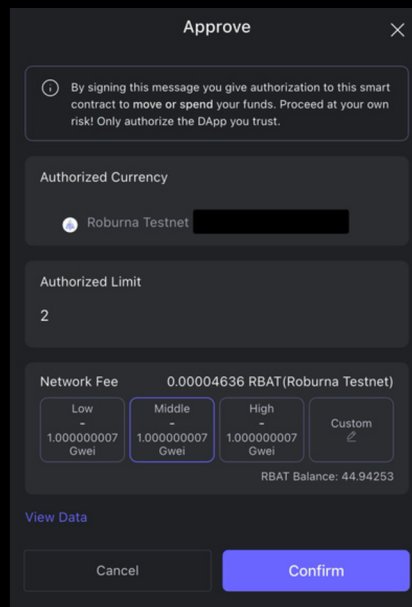

Connect wallet

First of all, always access the platform from the browser inside your wallet so your wallet understands what it needs to do.

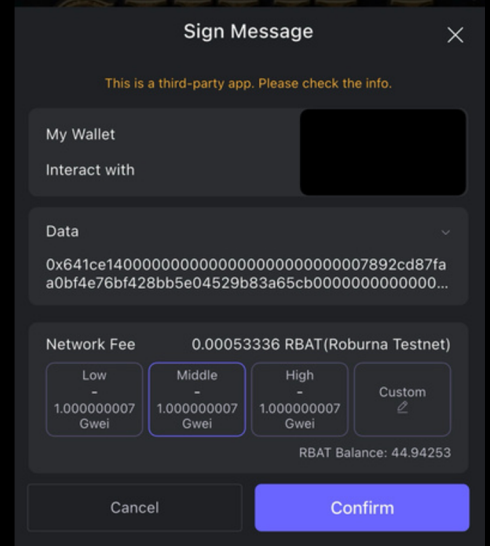

Click here to mint an NFT from a new collection (On Marketplace it will say either BUY NOW or MAKE AN OFFER)

You'll be asked by your wallet to sign twice.

Step 1 is an approval and no crypto is deducted from your wallet.

The second sign is the purchase transaction.

Once this has been completed, the purchase (in the case of new mints or fixed price buys on marketplace) is complete.

In the case of a failed offer, the FUSD will be returned to your wallet – please note that offer listings can **only** be bought with FUSD

ACTIVITY

What's Occurring?

The screenshot shows a blockchain activity interface. At the top, there are tabs for 'Mainnet' and 'Testnet', and a dropdown for 'All Chains'. Below this is a navigation bar with seven numbered circular buttons (1-7). On the left side, there is a 'Price' filter section with a dropdown for 'RBA', 'Min' and 'Max' input fields, and an 'Apply' button. Below the price filter is an 'Events (9)' section with a list of activity types and checkboxes: All (checked), Buy, Mint (8), Listing, Offer, Bid, Unlisting, Burn, and Redeem. At the bottom left is a 'Collections' dropdown. The main area is a table with columns: Event, Items, Price, QTY, Address, and Time. The table contains ten rows of activity data.

Event	Items	Price	QTY	Address	Time
Mint	Skullies #4 Skullies	2 RBA	1	0x7892...65CB	37m ago
